Championships

Problems of 621,160,000 Runners and 150,000 Race Organizers

- Fear of missing out: racing one race, you miss another one
- Dilemma: which race to race to increase the chances of winning
- Not all can afford traveling to race locations
- Not all getting qualified for major races
- Logistics limitations of big races
- Not too many racers in local races
- Not spectacular enough

Race Match is B2B2C SaaS Solution Merging Reality & Virtuality in Hybrid Racing

- Race multiple races simultaneously
- Race any race around your block
- Attend major races with your pace
- Race virtual qualification races and get qualified for real majors
- No limitations in number of racers
- Gamification of racing
